EAGLE Database

Welcome < Your User Name>

Streaming queries return unlimited number of rows in CSV format and are cancelled after 1800 seconds. Browser queries return maximum of 1000 rows in HTML format and are cancelled after 90 seconds.

Previous queries:

List of all queries executed sofar in this session. Selecting a query will make it appear in the query window. The button will show all of them in a separate window. Refreshing that window will load the latest queries again.

Demo queries: click a button and the query will show in the query window.

Holding the mouse over the button will give a short explanation of the goal of the query. These queries are also available on this page.

Metadata queries: The SQL statements under these buttons provide examples for querying and managing the state of a private database. Holding the mouse over the button will give a short explanation of the goal of the statement.

Query time (in millisec) = 2 Number of rows retrieved from database = 1000
